## DRY DOCK MANAGEMENT MADE EASY

Does this sound familiar?

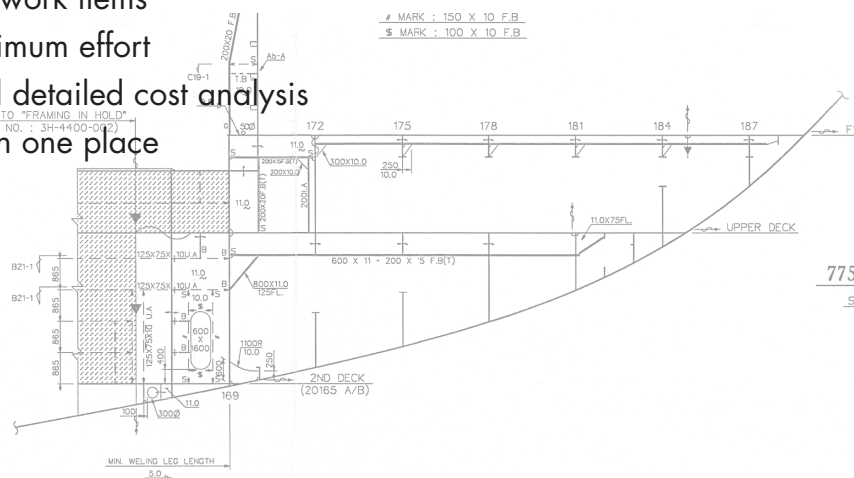

- Planning Dry Docking of your vessels is time consuming and often incomplete
- Daily reporting on costs and current status is hard to do
- Comparing docking history of all vessels in your fleet is nearly impossible

With DockMaster® dry dock management and cost control is easily done. With DockMaster® you can prepare, execute and control all dry docking projects and modifications of seagoing vessels and offshore rigs.

### Key features of DockMaster®:

- Fast & easy specification preparation by pre-defined jobs
- Create tenders within minutes as pdf- or excel file and send to any selected dockyard
- Compare shipyards by categories or work items
- Comfortable daily reporting with minimum effort
- Easy-to-handle project controlling and detailed cost analysis
- All important data at your fingertips in one place

**Stop guessing - use facts**

## This is DockMaster® in detail

### > **Ready to use:**

DockMaster works as browser based application online and offline.

On our servers or, if you prefer, on your own server. On your tablet, mobile or laptop.

### > **Tailormade solution:**

We customize DockMaster® to meet your special requirements

### > **Comprehensive database:**

Pre-defined work items, owner's standards, work procedures and crew preparation statements, including 2.295 work items with Chinese standard prices

### > **Simplified and transparent analysis:**

Complete history of all dockings, repair projects, afloat repairs and conversions across your fleet in one database with unified documents

### > **Multiple users possible:**

Create different user accounts, e.g. a login for the shipyard to enter their prices directly into the database

### > **All in one database:**

Full 24/7 access to all important documents, e.g. UTM reports, class records, technical drawings, engine measurement reports, photos. From any place around the world.

## Who we are

Looking back at more than 15 years of experience in ship management, we do know the processes and hick ups by heart. This enables us to produce cloud based software applications meeting the requirements of modern ship management to the point. We think along the same lines as our clients do.

MTS Maritime Turnkey Solutions GmbH was officially established in May 2015, preceeded by two years of development. Since then our list of customers is constantly growing. We are happy to serve our customers with our high quality maritime niche software applications.
